

Driver Licence Checks

The complete, secure and instant confirmation of your drivers' eligibility.

Situation: Hundreds of drivers on the road are disqualified or with a revoked or nearly expired licence, are my drivers.

Solution: Business Driver regularly checks to ensure your drivers have a valid, appropriate licence and notifies of any imminent changes in status.

Having a valid driving licence is an obvious requirement for any driver you employ. Yet, driving whilst disqualified or with endorsements is a statistically significant issue. In the event of incidents such as collisions there is a risk that both driver AND employer could be uninsured. Employers can also be unaware that non-UK license holders require a full UK license once they have been in the UK for a year.
