

The complete online driver compliance and training solution

With an industry-leading suite of driver risk management solutions and e-learning modules, **RiskTraker®** puts you firmly in the driving seat. The information gathered enables us to recommend appropriate interventions from our renowned suite of in-vehicle training courses.

Everything is integrated, securely hosted and accessible from a single log-in. Drivers are fully checked, risk assessed and offered targeted online training based on driver type, meaning legal compliance is assured. Furthermore, with consolidated reporting, analysis and benchmarking, managers have instant access to in-depth knowledge of their fleet drivers.

Driver Distractions - Mobile Telephones
Topic 1: Would you drink and drive?
Would you drink and drive?

Which is worse?

00:11 00:00

Drinking whilst chatting hands-free
 Drinking just over the drink-drive limit

Improving driver performance:
With system-generated specific learning derived from assessment results, and carefully structured video-based scenarios, rigorous testing and knowledge building is ensured.

Licence Checking

- Instant, secure DVLA checks with e-consent
- Automated regular checks
- Escalated for higher risk drivers

Assessment

- Driver risk assessment
- Hazard Perception Evaluation
- Drivers risk rated to their behaviour and circumstances

Training

- Over 36 modules of targeted e-learning assigned per driver risk profile
- Auto allocated dependent on individual risk profile
- Seasonal and risk-specific modules

Compliance

- Grey fleet drivers complete details of personal vehicles used for business
- Vehicle details recorded and verified including:
 - Insurance
 - MOT
 - Maintenance
- Automated reminders as documents expire

Reporting

- Consolidated reporting of risk levels and compliance to programme
- Advanced benchmarking and trend analysis
- Recommendation of further targeted, in-vehicle training
