

Winching

This session is designed for drivers of 4WD capable vehicles fitted with a Winch, to coach safe and effective winch operation.

The course assesses and then provides for the risk level & development needs of each driver.

Winching is a specialist skill which needs to be treated with focus and consistency to ensure safe and effective usage.

This course ensures that drivers are fully aware of their vehicle's winching capabilities, the session will be delivered to a group of maximum 4 delegates.

The following areas will be covered

- PPE
- Site Risk Assessment & Management
- Winch types and associated equipment
- Object to be moved
- Method of winching
- Tolerances and time
- Maintenance / cleaning routines.

Full Post Training Reports will be submitted with 48 hours of completion.
