

# 4WD Off Road (LANTRA Certified)

This session is designed for drivers of 4WD capable vehicles who drive regularly off road and on unsealed tracks.

The course assesses and then provides for the risk level and development needs of each driver.

Vehicles with 4WD capability are becoming more prevalent. Due to their unique dynamics they offer both special capabilities and particular risks, requiring a focused behavior change for safe operation.

This course ensures that drivers are fully aware of their vehicle's capabilities and differences to standard cars/vans. How to safely operate them both on the public highway and in off road environments is covered.

## Key information:

**Duration:** Full Day (7 Hours)

**Trainer Delegate Ratio:** 1-3

**Location:** Nationwide UK & Ireland

**Reporting:** Post Training Report, LANTRA
