

Defensive Driver Training Refresher – Global

This course is for drivers who require a refresher defensive driver training course.

Driving is probably the most risky activity that your employees will undertake as part of their work. Most have learnt how to drive and passed the 'Test' many years ago, but, like any learnt behaviours, there will be room for improvement.

In line with your occupational road risk responsibilities, regular assessment and training interventions are key elements of your **Driver Risk Management** programme. Our Defensive Driver Training Refresher course is for drivers who have been identified as high risk by web-based assessment.

This course focuses on the individual needs of each driver, taking a remedial approach to support the driver with their:

- Behaviour
- Confidence
- Attitude

The course is delivered in English, unless otherwise stated, and the training reflects the driving culture and laws of whichever country the training takes place in.

Key information:

Duration: Half day

Trainer Delegate Ratio: 1-1

Location: Global

Reporting: Post Training Report

Pre Training Data: eDriving assessment
