

Virtual Classroom Live

A range of courses available online in a live virtual classroom. We use a leading video conferencing system enabling delegates to see, talk and message the trainer live, interact with other delegates on learning activities as well as view content online through a secure, video link.

The technology required to participate is straightforward: a fully-charged laptop, tablet or phone, together with a webcam/in-built camera and good-quality access to the internet.

Speed Awareness

Enhancing driving skills and improving speed awareness, this workshop is designed to promote a road safety culture within your driving fleet.

Driver Safety Awareness

Raising awareness and refreshing drivers' understanding of the consequences and benefits of safe, fuel-efficient driving.

Driver Distractions

This interactive workshop explores the distractions drivers are exposed to and identifies solutions to mitigate risks on and off the road.

Line Manager Workshop

Providing line managers with an in-depth understanding of their responsibilities relating to employees who drive for work.

Furloughed employees can undertake training

The Government is encouraging training for furloughed staff, stated on the official site: 'Furloughed employees can engage in training, as long as in undertaking the training the employee does not provide services to, or generate revenue for, or on behalf of their organisation. Furloughed employees should be encouraged to undertake training.'
